RESEARCH STATEMENT

I currently have three research foci: 1) Water Justice – what drives lack of access to safe, potable water and sanitation and collective action to improve access and protect water quality and availability in the context of the United States, Israel/Palestine, and globally; 2) Comparative settler colonialism, land grabs, and resistance; 3) Community development, including collective action to address direct and structural violence.

Honors and Awards

2015/2016 Fulbright Fellow, Birzeit University, West Bank, Palestine.

COURSES TAUGHT

- ISS 310: People and the Environment: Food Water and Society (Fall 2019; Fall 2020)-- Explores how society is impacted by and impacts the production, consumption, use, and distribution of food and water. We study the role of gender, class, race/ethnicity, as well as the construction of “imaginaries” (taken for granted notions) around food and water.
- Soc 100: Introduction to Sociology (Spring 2016; Fall 2017, Fall 2021; Fall 2022) -- Addresses the key concepts in creating the sociological imagination
- Soc 281: Sociological Methods (Fall 2013, 2014) – an overview of the methods for understanding society and the social world
- Soc 361: Contemporary Communities (Spring 2018, 2019, 2020, 2021, 2022)– explores how place based communities are made, developed, and changed. Students are required to work in a community-based organization in the Lansing area and use their work in this community to explore the concepts reflected on in class.
- Soc 368/LB368: Science, Technology, and Society explores the concept, theories, and methods associated with the study of scientific processes, technologies, and technological developments in the social sciences.
- Soc 362: Developing Societies (Fall 2018) – Explores the social forces of economic development and colonialism in creating and recreating global society.
- Soc 424: Organization and Society (Spring 2010-2015) – Explores the theoretical and conceptual frameworks for understanding real world organizations.
- Soc 499: Social Issues and Change: Community and Environmental Justice (Spring 2009) – taught as an exploration of the intersection between community and environmental issues (broadly defined) using applied sociological method.

- Soc 481: Social Movements and Collective Identity – Uses the theoretical and conceptual frameworks to understand the origins, trajectory, and success of social movements and social movement organizations. Students conduct participant observation in particular social movements. (2010-present)
- Soc 481: Intentional Social Change: Upper level undergraduate seminar on the drivers of and response to social change and development in the 21st century (2008-2009; Fall 2019; Fall 2021; Fall 2020)
- Soc 816: Contemporary Social Theory – a seminar that introduces students to social theory from mid-20th century to present (2012-2013)
- Soc 865: Environmental Sociology (Fall 2020) – a seminar exploring the basic theories, concepts, frameworks and debates in the subfield of the study of environmental sociology.
- Soc 869: Communities and Conservation, A graduate seminar on the role of communities in natural resources management and conservation (2008-present)
- Soc 931: Sociology of Standards, A graduate seminar on the origins, development and performance of standards in society (Fall 2011)
-
- At University of Illinois HCD 535: Community Development Theories and Topics, Graduate level survey of critical community development literature. (2006-2008)
- At University of Illinois AGED 360 Integrating Leadership, Capstone for the University of Illinois Leadership Certificate Curriculum (2005-2007)
- At American University (Adjunct) Soc 389-689: Environment and Global Society – Asked students to apply the theoretical and methodological frameworks to understand multiple contexts of environment and social change. Used case studies ranging from the socio-ecological impacts of World Bank policy, to the implementation of disaster management in the United States (2004-2005).
- Socioeconomic Aspects of Sustainable Agriculture and Rural Development. Centre Internationale des Haute Etudes Agricultrale du Mediterranee (CIHEAM), Bari, Italy (2003).
- Principles of Ecology and Environment (Ecology 301). University of Hebron, Hebron, West Bank (1995-1996).
